1/8 SCALE BLUE & BETA PLASTIC MODEL KIT

X-PLUS
MODEL KIT

KIT NO
411-200143TP

IMPORTANT - READ THIS FIRST!

- This model needs to be assembled. Please read the instructions carefully before assembling the model.
- After removing the product from the plastic bag, tear the plastic bag and dispose of it in a safe place, as there is a danger of suffocation if young children mishandle it.
- Carefully remove the parts from the trees and discard the trees after removing all parts.
- Due to the manufacturing process, sharp points may be present that could cause harm. Do not play with or mishandle the trees, and do not use them for anything other than their intended purpose. Households with young children should be particularly cautious.
- Use nippers to remove parts, and smooth any burrs remaining on parts with a craft knife or file. Exercise caution when using nippers, craft knives, or files, as they can cause cuts to hands or fingers. Children under 10 years old should have a parent or guardian carry out the work.
- This kit contains small parts that pose a choking hazard, so keep them out of reach of young children. Never leave a child younger than the target age unsupervised, as there is a risk of swallowing these parts.
- If using plastic cement or paint, pay close attention to the following points: In case of contact with eyes, immediately seek medical attention and follow safety instructions on the product packaging. Do not use cement or paint in enclosed areas due to the risk of inhaling toxic fumes. Never use cement or paint near an open flame, as it poses a fire hazard.
- Avoid leaving this product in areas exposed to direct sunlight, high temperatures, or high humidity.

PRO TIP!

Wanna try recreating the snow?

Use a matte white paint and mix an adequate amount of baking soda to make it as opaque as possible.

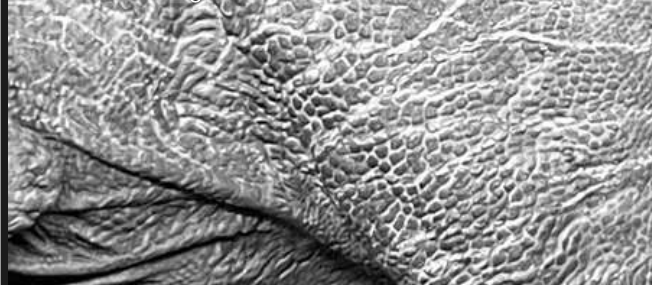

Afterwards, use a brush and dab to apply the mixture, or blend it with ink, and finish up by layering and painting over.

PRO TIP!

Raptor eyes do not have white parts; they only have irises and pupils. The irises are painted in yellow, blending into gold, then orange and lastly black radiations, converging towards the left-right center. Alternatively, we can outline the pupils in yellow, gently blend them, and finish with a mixture of yellow, gold, orange and black colors.

PRO TIP!

Wanna try your hand at making a skin-shedding effect!?

The scales on the body can be expressed in a variety of ways. Try applying thin and dark gray paint using a toothbrush and flicking on the paint to create a spattered effect. After painting the model once this way, apply chipping liquid and ivory all over to create an interesting, varied shedding effect on the scales even if you peel off the paint.

*The effect is different depending on the environment so try different

KEEP AN EYE OUT FOR THESE KITS TOO!

FOR SUGGESTED DETAIL PAINTING SCHEME
SEE ILLUSTRATIONS. Paint as indicated
and allow to dry before assembling.

Blue's assembly

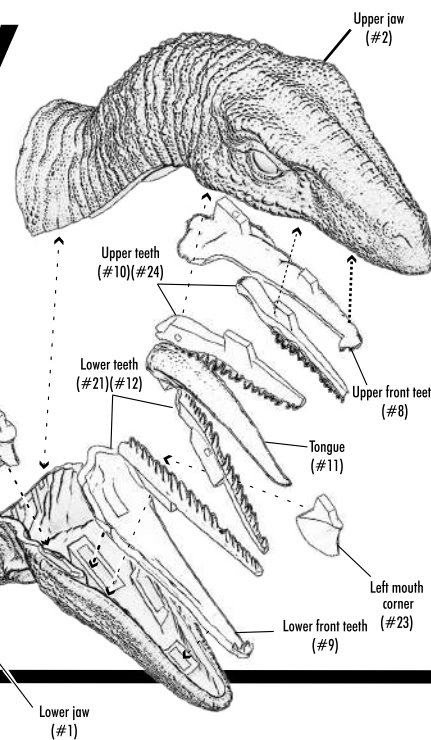

Step 2: Assembling Blue's head

Attach the upper teeth #8, #10 and #24 to the upper jaw #2.

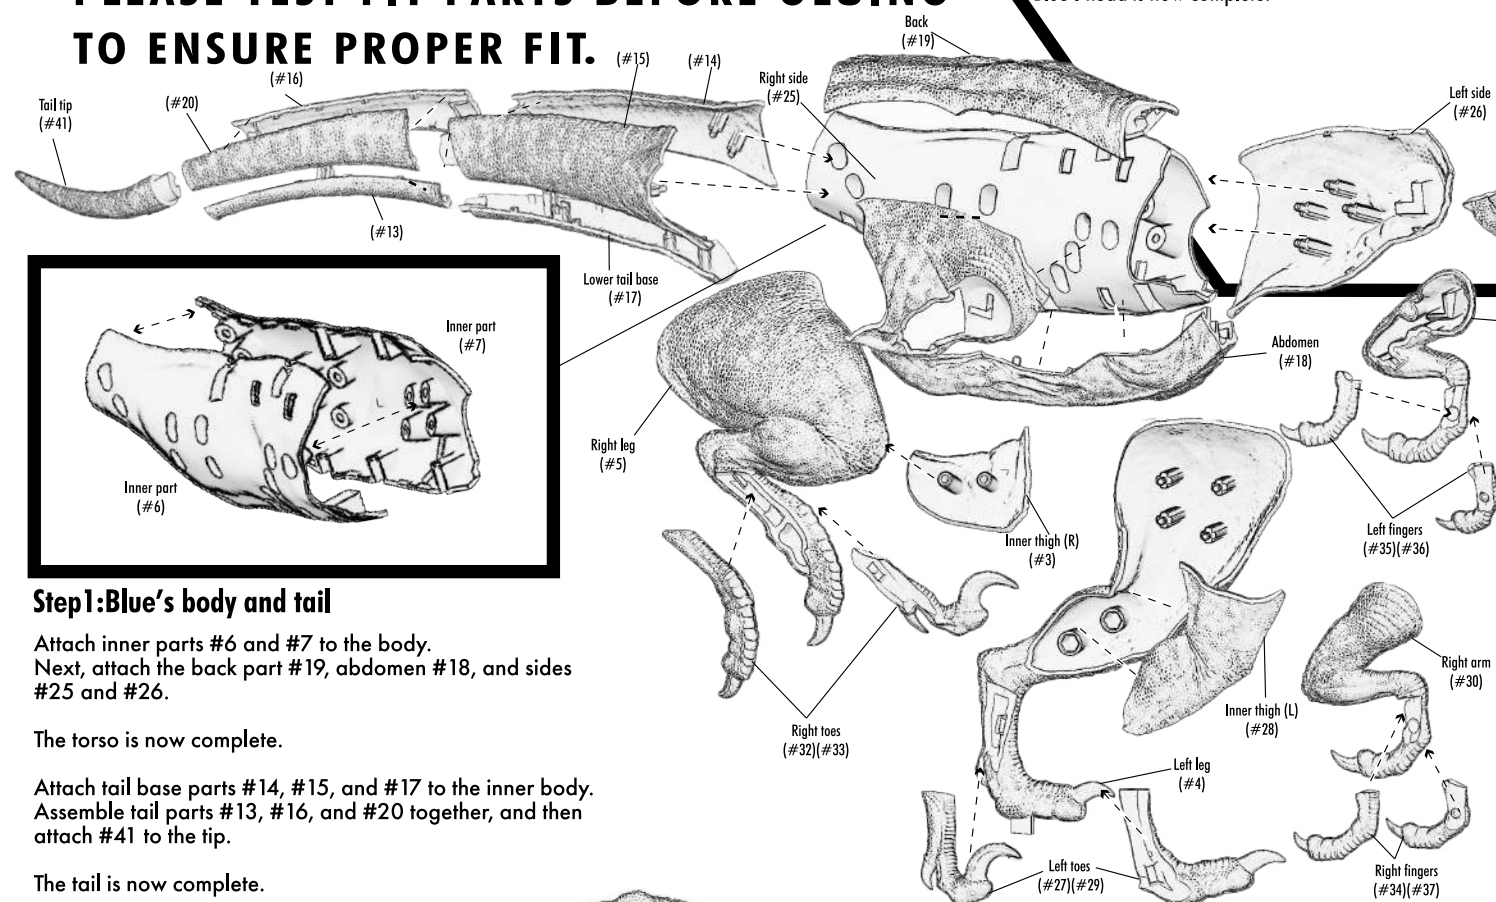

Attach the lower teeth #9, #12 and #21 to the lower jaw #1, then attach the tongue #11.

Attach the mouth corners #22 and #23 to the completed lower jaw, then attach it to the upper jaw.

Blue's head is now complete.

NOTE!
PLEASE TEST FIT PARTS BEFORE GLUING
TO ENSURE PROPER FIT.

Step 1: Blue's body and tail

Attach inner parts #6 and #7 to the body. Next, attach the back part #19, abdomen #18, and sides #25 and #26.

The torso is now complete.

Attach tail base parts #14, #15, and #17 to the inner body. Assemble tail parts #13, #16, and #20 together, and then attach #41 to the tip.

The tail is now complete.

Step 3: Blue's arms & legs

Attach #34 and #37 to the right arm #30. Attach #35 and #36 to the left arm #31.

The right and left arms are now complete.

Attach the inner thigh #3 to the right leg #5. Then sandwich the right foot between #32 and #33.

Attach the inner thigh #28 to the left leg #4. Then sandwich the left foot between #27 and #29.

The right and left legs are now complete.

Beta's assembly

Step 5: Beta's head

Attach the upper teeth #59 and #58 to the upper jaw #54.

Attach the lower teeth #61 and #60 to the lower jaw #53.

Next, attach the tongue #57.

Then, attach the mouth corners #55 and #56 to the lower jaw #53.

Beta's head is now complete.

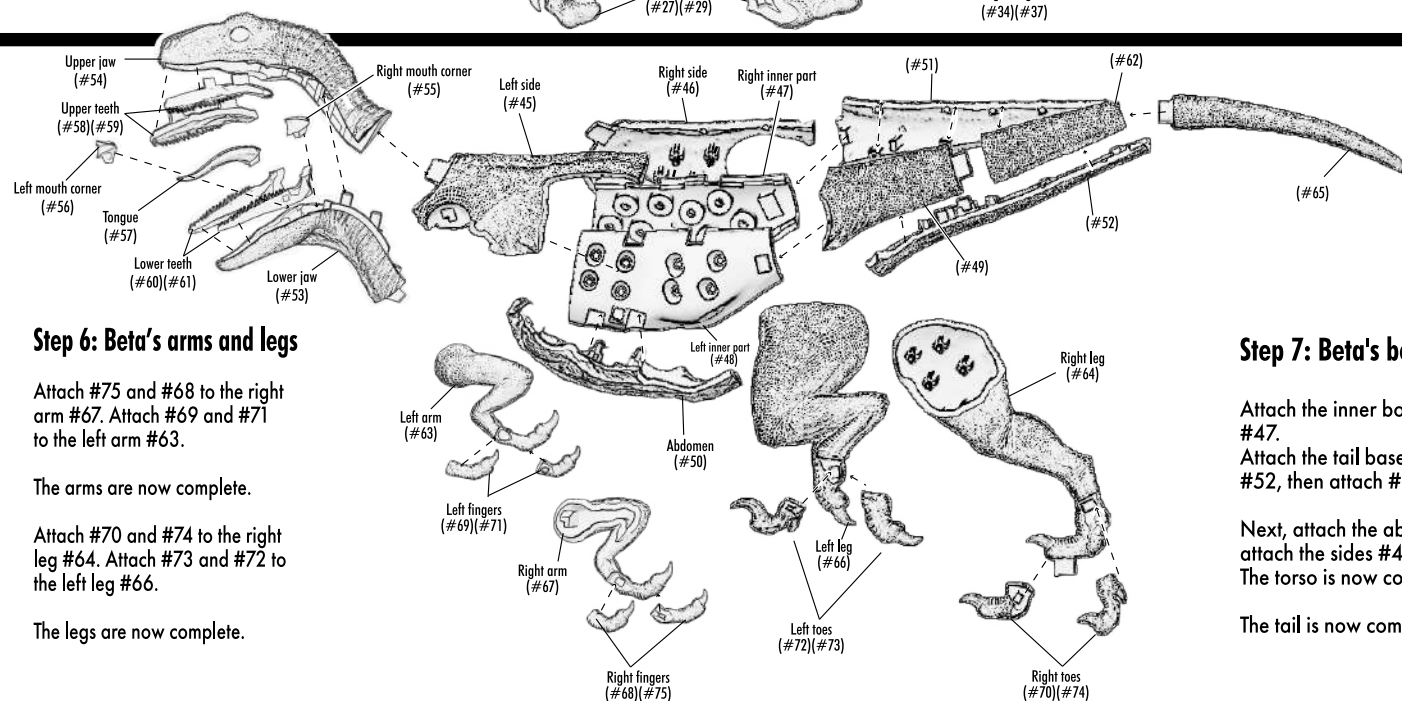

Step 6: Beta's arms and legs

Attach #75 and #68 to the right arm #67. Attach #69 and #71 to the left arm #63.

The arms are now complete.

Attach #70 and #74 to the right leg #64. Attach #73 and #72 to the left leg #66.

The legs are now complete.

Step 7: Beta's body & tail

Attach the inner body parts #48 and #47. Attach the tail base #49, #51, and #52, then attach #62 and #65.

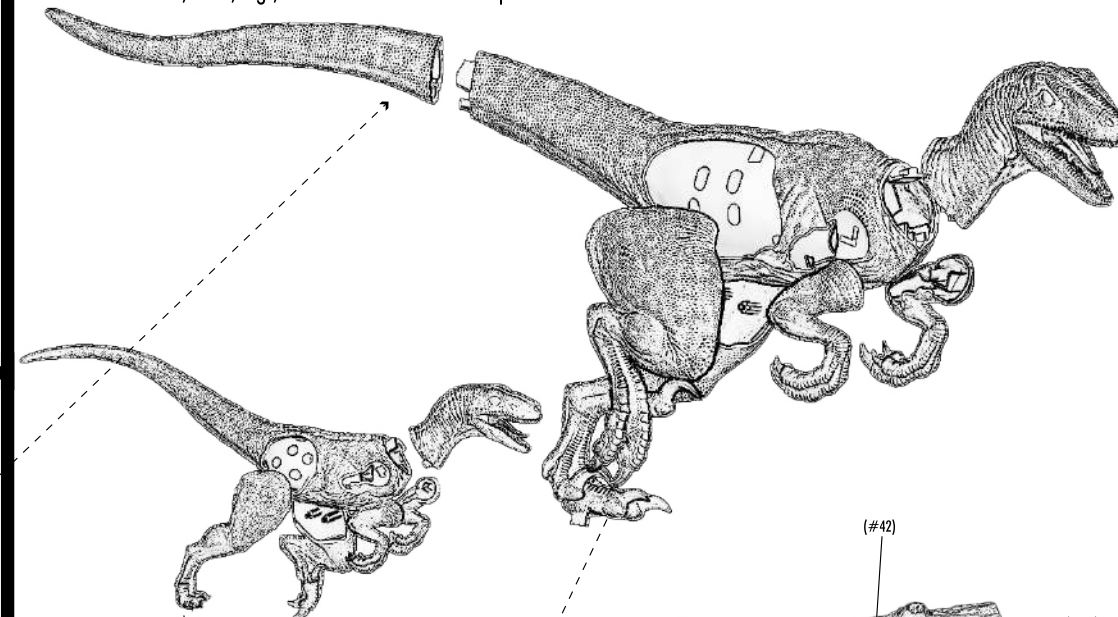

Next, attach the abdomen #50, then attach the sides #45 and #46. The torso is now complete.

The tail is now complete.

1/8 SCALE BLUE & BETA PLASTIC MODEL KIT

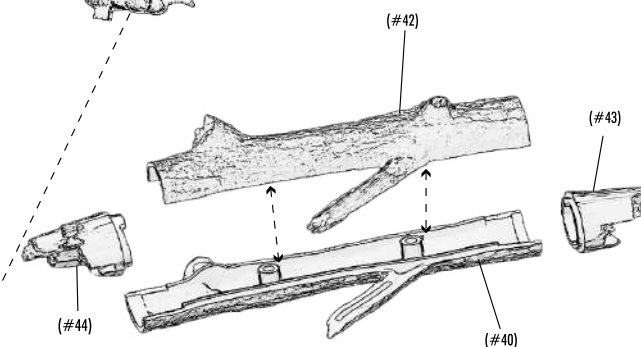

Step 4: Blue's assembly completion

Attach the head, arms, legs, and tail to the torso to complete Blue.

Step 8: Beta's assembly completion

Attach the head, arms, and legs to the torso to complete Beta.

Step 9: Diorama base

For the fallen tree, attach #42 to #40, then attach #43 and #44 to the tips.

Attach logo plate #39 to diorama base #38.

Attach Blue and Beta to the base.

Place the fallen tree wherever desired.

The model is now complete.
